

Rolled Upright Shelving

Rolled Upright Shelving For Organisation of Small Parts and Documents

The “Rolled Upright Shelving” (RUT) style system has been used for light to medium duty storage offering a flexible solution with adjustable shelves to suit the changing needs of your business. Ideal for hand-picking, it has the capacity to store a large range of different sized SKU numbers and item quantities. It is ideal for spare parts storage in a workshop or warehouse. In addition, it can be used for the storage of files and office equipment.

RUT-style shelving is roll-formed from premium pre-painted steel. Its bolted construction makes a strong, stable storage unit that can be easily extended, re-configured, or relocated as storage needs change over time.

RUT Light Duty Shelving

A shelving solution for shelf loads up to 110kg and a maximum stack height of 2375mm, where personnel access inventory through hand picking.

RUT Medium Duty Shelving

A heavier-duty industrial storage application for shelf loads up to 230kg and a maximum stack height of 2375mm. This solution is also used for two-tier or raised storage applications.

Rolled Upright shelving can be configured in such a way that your exact storage requirements are met or exceeded. Along with the comprehensive range of accessories, the shelving is customisable to suit almost any application.

The shelving system is manufactured with durable metal construction. There are no raw edges to damage stored products. The system is solid with bolted construction and has ease of assembly along with a simple clip shelf support system. The close-fitting shelves prevent stock damage or loss.

The system can be installed using single or double-sided shelving configurations and comes in a wide range of heights, widths, and depths. The flush end panels provide additional stability.

A wide range of storage accessories is available, including lockable door sets, plastic parts trays and file racks, bin fronts, parts drawers, lateral filing cardholders, and metal dividers.

Rolled upright shelving provides an excellent solution for efficient storage and easy accessibility to items by personnel.
